AKABA

Kabi Beam

by Jorge Pensi

Kabi by Akaba is a range of ergonomic chairs designed by Jorge Pensi.

The Kabi chair is comprised of multiple configurations around a flexi polypropylene shell.

The polypropylene shell is available in several colours as well as having the option of an upholstered seat pad or fully upholstered in the choice of fabric or leather.

Kabi beam features a mild steel frame available in a two, three and four seat configuration on adjustable glides or optional floor fixing unit. The beam can be powdercoated to match the shells or finished to chrome or polished.

Arms may be placed at the end of the structure and a compact laminate table may be used in lieu of a seat.

Lead time
14 Weeks

Warranty
7 year structural warranty

Certification
ISO14001

Maintenance
Refer to Stylecraft care
