Duna 02 Timber Leg

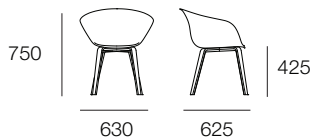

by Lievore Altherr Molina

A shape that is both evocative and contemporary with the flexibility to be used in many environments is the Duna 02 4 leg timber chair by Arper.

The evolution of Duna 02 allows for a thinner and sleeker profile with the polypropylene shell and a timber base in natural Oak. The polypropylene shell is available in six colours with the timber frame finished to house stain of natural, wenge, teak effect or bleached. Upholstery options include fully upholstered, front face upholstery or seat pad upholstery from a selection of Arpers house fabric and leathers. Duna 02 is also offered with a sustainably-made shell, a 100% recycled post-industrial material and is available in anthracite colour

Lead time

Stocked item with a polypropylene shell and base in natural stain. For upholstered items, alternative base finishes, or if the components are out of stock, the lead time may be up to 14 weeks.
